GAUGE:

9 sts + 12 rows = 4 in. (10 cm) in Garter st (k every row).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

NOTES:

1. Hat is made from one large rectangle with two miters (angles) formed by working decreases.
2. A circular needle is used to accommodate the large number of sts. Work back and forth in rows on circular needle, as if working on straight needles.
3. Sides of rectangle are seamed to make Hat and top is gathered.
4. To change color, cut the old color leaving an 8 in. (20.5 cm) yarn tail then begin working with the new color leaving an 8 in. (20.5 cm) beginning tail. You may knot the old and new yarn tails together, if you like! When you have finished knitting, unknot the yarn tails and weave them in.
